

Hall Wells - 105.225 - Correspondence - Nd -

R - FH - TPA

I went to see Dr. Ringon today
& he told me that there are the
pills which I have been taking for
cold & which I gave you. It seems
to me the directions were on my
three times with water. They are
supposed to be good if taken when
a cold is just beginning. I have
found them very efficacious.

It certainly was nice
having you & Elmer here the
other day & I also thank you for your
picture. The line up has seemed
so incomplete - how I am waiting
for Bits -
